A Closer Look At...Discussions	vi
Heme CAPsules Videos.....	vii
Preface to First Edition.....	viii
Preface to Second Edition, Volume 2	ix
Foreword to Second Edition, Volume 2	x
Contributors.....	xii
Current and Past HCMRC Members.....	xiii
Acknowledgments	xiv
How to Interpret Proficiency Testing Data and Use the Interactive Features	xv

Introduction	2
Bone Marrow Sampling and Specimen Processing	4
Extramedullary Hematopoiesis.....	16
Bone Marrow Environment	18
Bone Marrow Smear Examination and Differential.....	25
Artificial Intelligence in Hematology	29

Section Editors
David Blomberg, MD
Lydia Contis, MD
Mohamed Salama, MD

Erythrocytes	36
Erythrocyte Precursor, Normal	40
Red Cell Maturation and Cell Division	50
Morphologic Keys to Identifying Early Normoblasts	52
Erythrocyte Precursor, Abnormal.....	54
Erythrocyte Precursor with Megaloblastic Changes	58
Megaloblastosis.....	61
Megaloblastic Morphology	66
Megaloblastic vs. Megaloblastoid Erythroid Morphology.....	68
Erythrocyte Precursor with Vacuolated Cytoplasm	70
Sideroblast (Iron Stain)	72
Sideroblasts and Siderocytes	74
Hemoglobin Formation and Iron Utilization.....	76
Sideroblast, Ring (Iron Stain)	78
Formation of Ring Sideroblasts	80

Section Editors
Parul Bhargava, MD
Natasha M. Savage, MD

Section Editor
Ria Vergara-Lluri, MD

Section Editors
Kyle Bradley, MD
Olga Pozdnyakova, MD

Section Editor
Katherine A. Galagan, MD

Megakaryocytes	178
Megakaryocyte, Normal	180
Emperipolesis and Other Platelet-Independent Megakaryocyte Functions	185
Megakaryocyte Maturation	188
Megakaryocyte, Abnormal.....	194
Abnormal Megakaryocytes.....	198
Abnormal Megakaryocytes in Neoplasia	208
Megakaryocyte Mimics	216

Blasts and Blast Equivalents	220
Blast Cell (includes lymphoblast)	224
Myeloblast with Auer Rod	232
Neutrophil, Promyelocyte, Abnormal (with/without Auer Rods)	234
Monocyte, Immature (Promonocyte, Monoblast)	240
Classification of Acute Myeloid Leukemia.....	244
Rare Blast Types and Blast Mimics.....	246
Using Cytochemical Stains for Initial Lineage Determination and Case Triage.....	252

Microorganisms	258
Fungi, Extracellular.....	260
Neutrophil/Macrophage with Fungi, Histoplasma, Leishmania, or Toxoplasma Organisms.....	262
Fungal and Parasite Morphology in Bone Marrow Macrophages	266
Erythrocyte Precursor with Parvovirus.....	268
Bone Marrow Manifestations of Parvovirus	272
Neutrophil/Macrophage with Mycobacteria	274
Bone Marrow Findings in HIV Infection	276

Section Editors
Etienne Mahe, MD, MSc
Megan Nakashima, MD
Horatiu Olteanu, MD, PhD

Section Editors
David Blomberg, MD
Eric F. Glassy, MD
Kathryn A. Rizzo, DO, PhD

Miscellaneous	280
Macrophage.....	282
Macrophage with Abundant Small Lipid Vacuoles	284
Macrophage with Phagocytized Cell (Hemophagocytosis).....	286
Hemophagocytic Lymphohistiocytosis.....	288
Macrophage with Hemosiderin (Siderophages).....	290
Sea-Blue Histiocyte	294
Gaucher/Pseudo-Gaucher Cell.....	298
Niemann-Pick Cell, Foamy Macrophage.....	302
Gaucher and Niemann-Pick Diseases.....	304
Cytoplasmic Inclusions in Bone Marrow Cells.....	310
Metastatic Tumor, Cell or Clump.....	314
Metastatic Tumor in the Bone Marrow	316
Lipocyte.....	318
Mitotic Figure.....	320
Osteoblast.....	324
Osteoblast vs. Plasma Cell.....	326
Osteoclast.....	328
Squamous Epithelial/Endothelial Cell.....	330
Bone Marrow Smear Artifacts.....	332

Appendix	334
Proficiency Testing Best Practices	336
Proficiency Testing in Hematology	337
CAP Bone Marrow PT Survey Trends	344
Hematology Master List of Identifications.....	346
The Road to DigitalScope	347
Viewing Virtual Bone Marrow Smears	348
Virtual Bone Marrow Smear PT Program	350
References	363
Index	371

A Closer Look At...Discussions

Erythrocytic Cells

Red Cell Maturation and Cell Division	50
Morphologic Keys to Identifying Early	
Normoblasts.....	52
Megaloblastosis.....	61
Megaloblastic Morphology	66
Megaloblastic vs. Megaloblastoid Erythroid	
Morphology.....	68
Sideroblasts and Siderocytes	74
Hemoglobin Formation and Iron Utilization.....	76
Formation of Ring Sideroblasts	80

Granulocytes and Monocytes

Neutrophil Granulopoiesis	96
Life Cycle of Eosinophils, Basophils, and	
Mast Cells.....	114
Myeloproliferative Neoplasms	116
Origin of Monocytes	122
Hereditary Granulocytic Disorders	132
Myelodysplastic Syndromes (MDS).....	136
MDS/Myeloproliferative Disorders	140

Lymphocytes and Plasma Cells

Bone Marrow Manifestations of Lymphoma.....	162
Plasma Cell Inclusions and Pseudo-Inclusions	174

Megakaryocytes

Emperipolesis and Other Platelet-Independent	
Megakaryocyte Functions	185
Megakaryocyte Maturation.....	188
Abnormal Megakaryocytes.....	198
Abnormal Megakaryocytes in Neoplasia	208
Megakaryocyte Mimics	216

Blasts and Blast Equivalents

Classification of Acute Myeloid Leukemia.....	244
Rare Blast Types and Blast Mimics.....	246
Using Cytochemical Stains for Initial Lineage	
Determination and Case Triage.....	252

Microorganisms

Fungal and Parasite Morphology in Bone Marrow	
Macrophages.....	266
Bone Marrow Manifestations of Parvovirus	272
Bone Marrow Findings in HIV Infection.....	276

Miscellaneous

Hemophagocytic Lymphohistiocytosis.....	288
Gaucher and Niemann-Pick Diseases.....	304
Cytoplasmic Inclusions in Bone Marrow Cells.....	310
Metastatic Tumor in the Bone Marrow	316
Osteoblast vs Plasma Cell.....	326
Bone Marrow Smear Artifacts	332
